Plan Overview

Whoa!

NY State Governor Hochul has instituted legislation that bans electronic devices with access to the internet during the school day, from bell to bell. Public school districts, Charter Schools and BOCES Programs are required to submit their plan to New York State.

At Summit, we believe in and support the idea that phone/device use during the school day causes distractions and has negative impact on our students

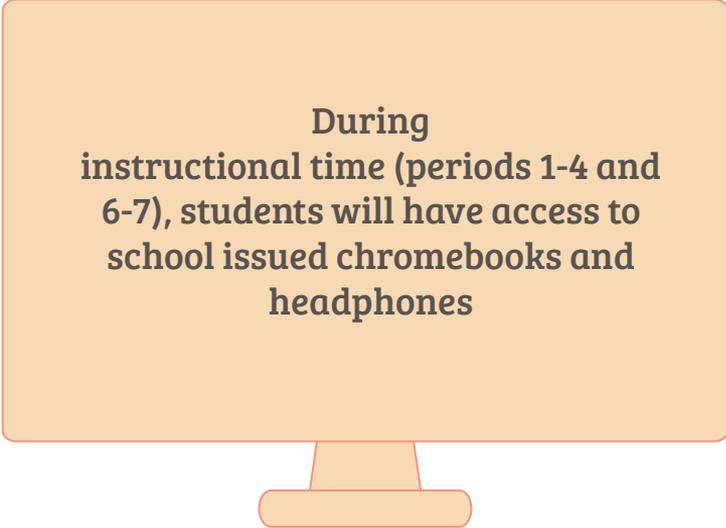

While we do not have to submit our own plan to the State, we are moving forward with a plan of our own.

**Phones and
personal devices
are not allowed
during
INSTRUCTIONAL
TIME**

Personal Devices include
laptops, ipad's, Switches
and/or any device with access
to the internet

During
instructional time (periods 1-4 and
6-7), students will have access to
school issued chromebooks and
headphones

How will this work?

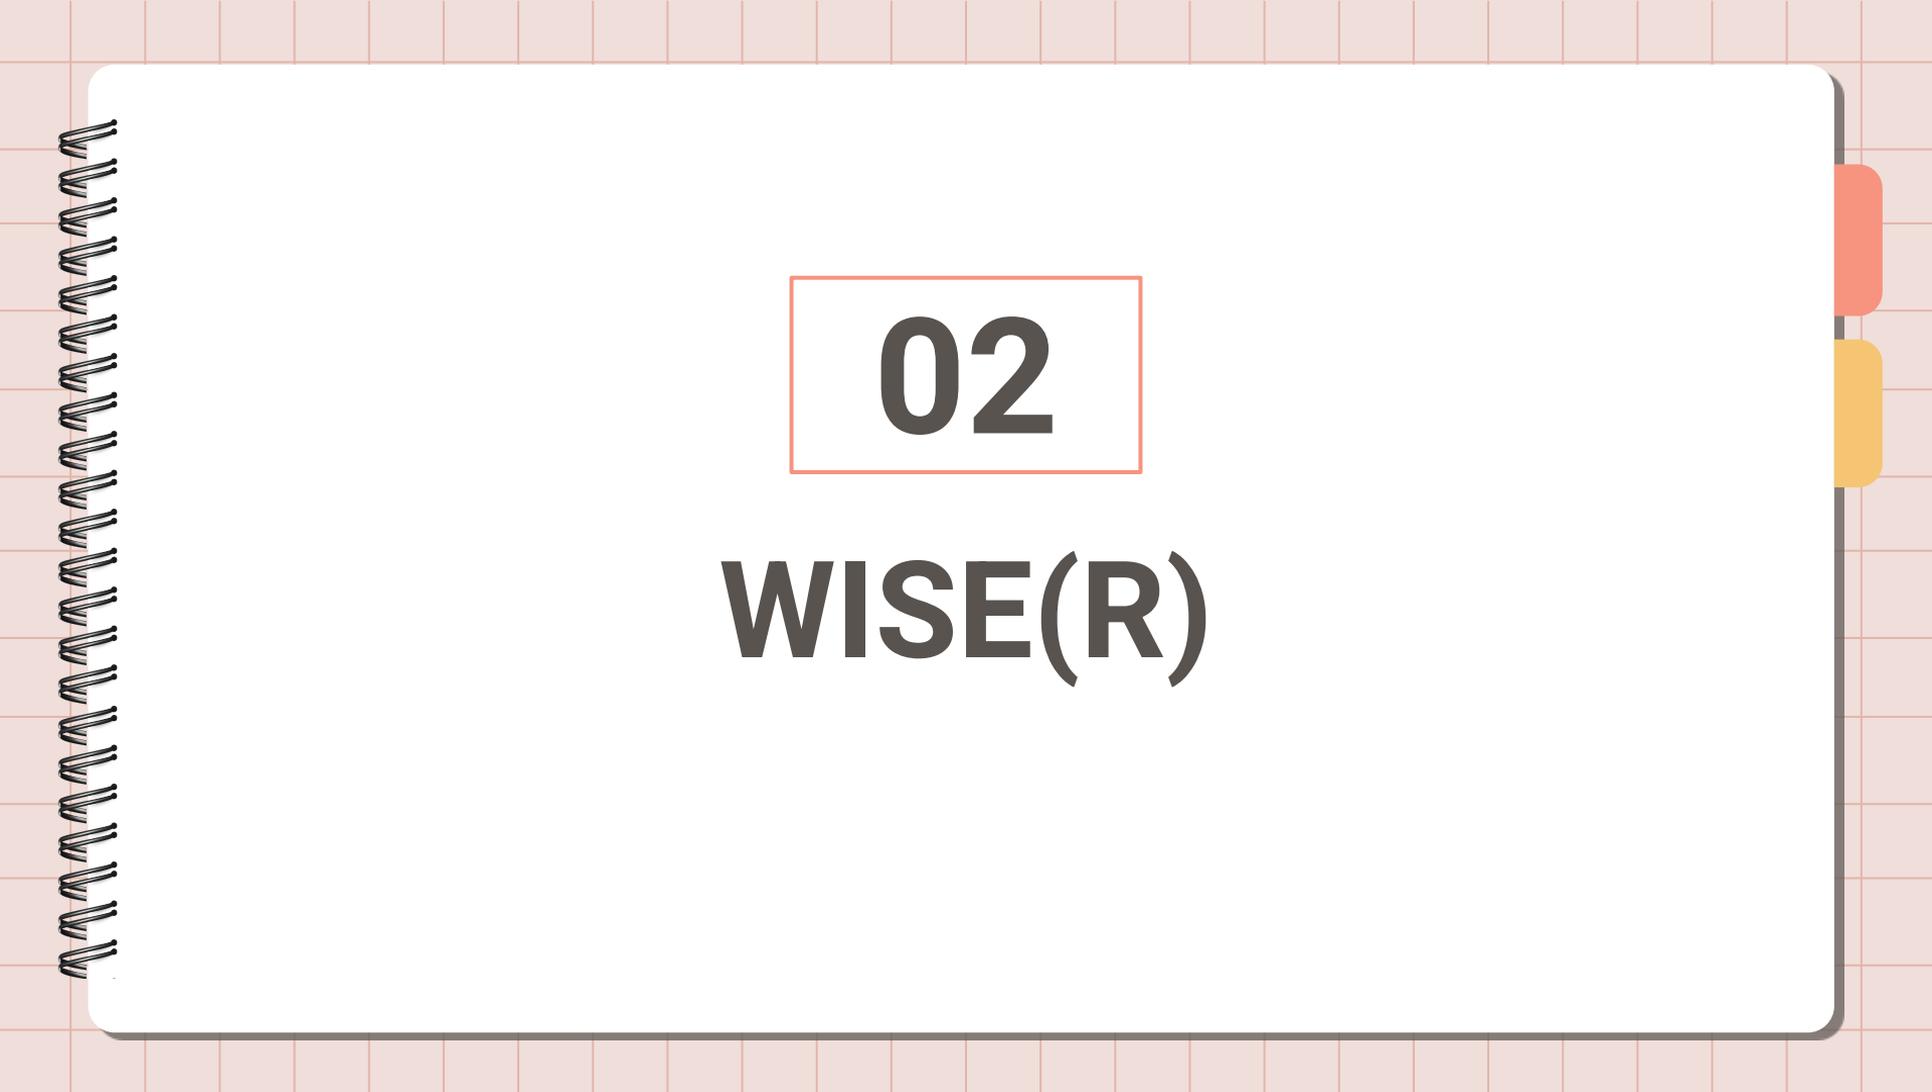

Turn in your phone/device. It will be stored in a lockable, chargeable cabinet

Get your phone back at the pre-lunch HR. Enjoy lunch and recess! Turn your phone back in during post lunch HR

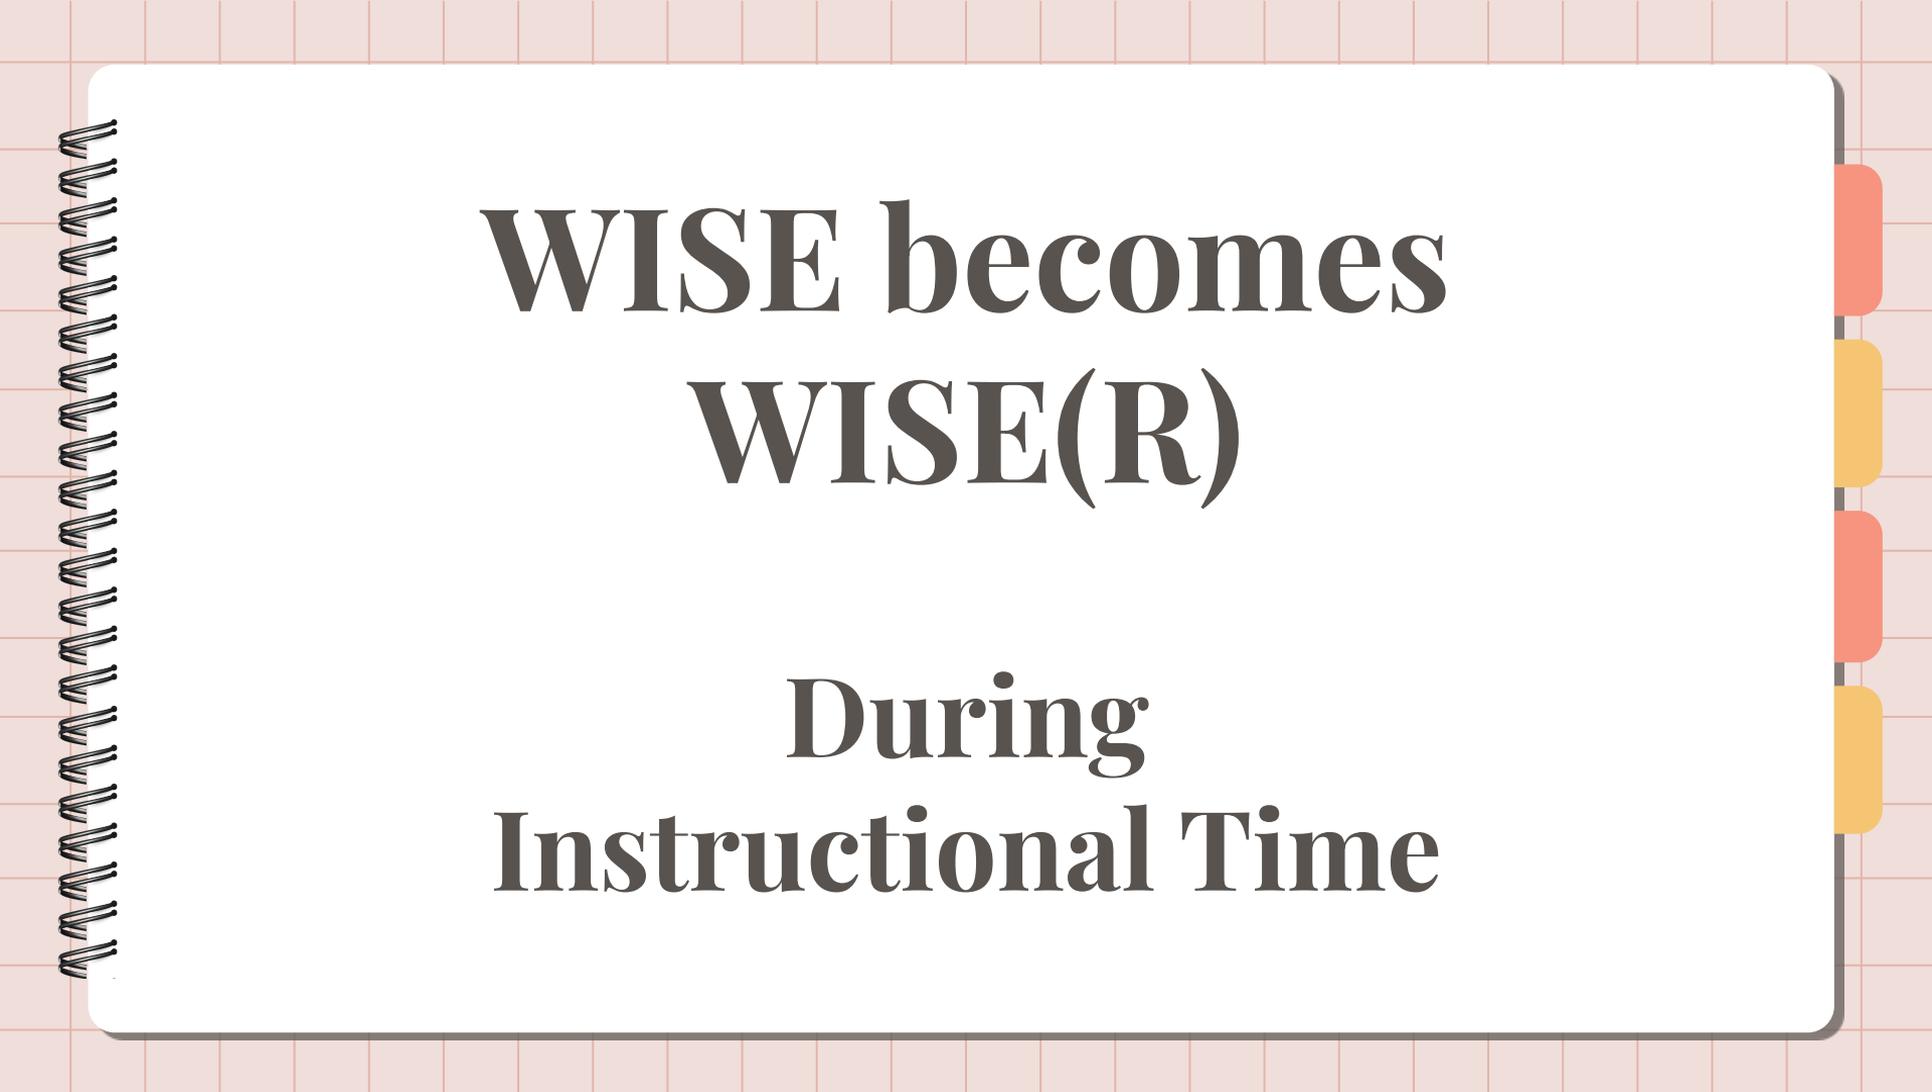

Phones/Devices are not allowed.
They must not be visible.

There are two exceptions to these rules

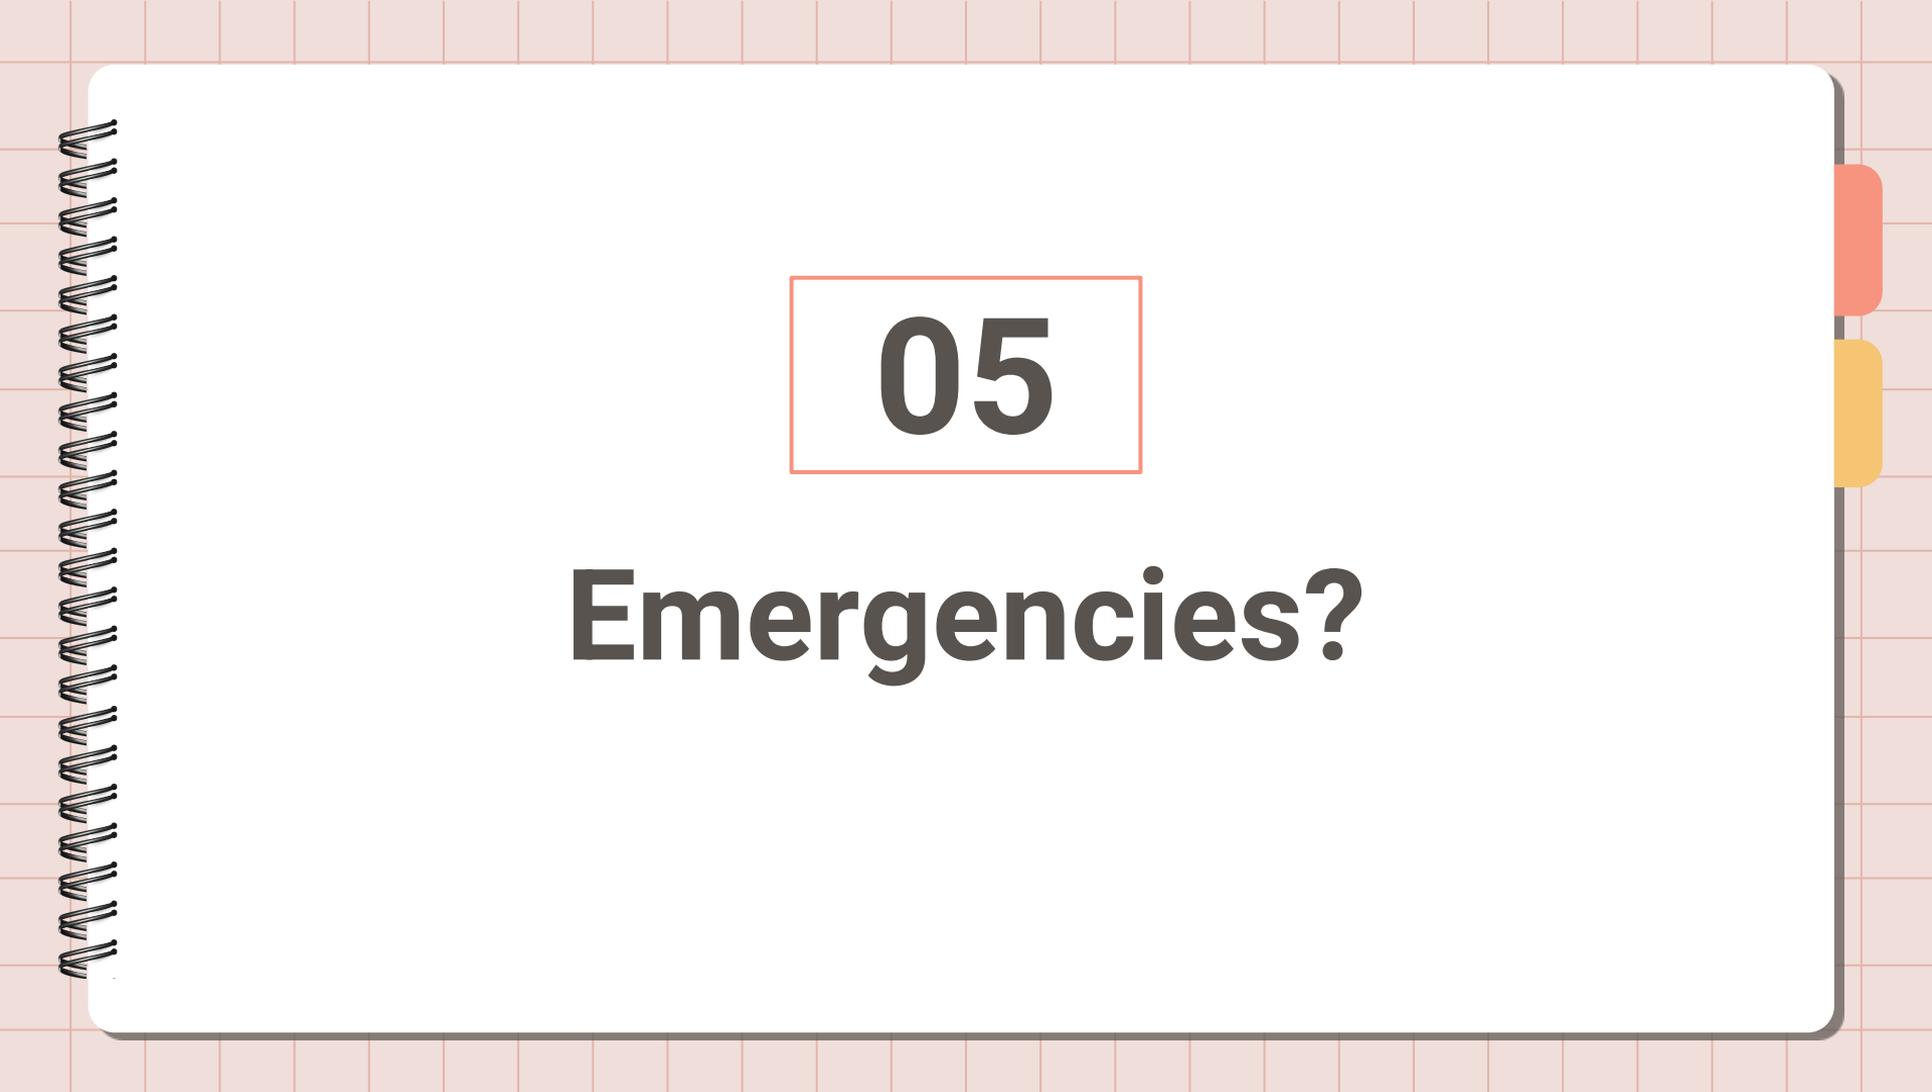

Medical

Students whose phones serve as a connection to a medical device WILL be allowed to keep their phones with them in their backpack. Phones are still expected to be away and not visible during instructional time.

IEP Accommodation

Currently, we have no students who have an accommodation or modification saying they need a personal electronic device during instructional time. However, if a CSE adds this as an accommodation, it will be allowed.

Emergencies?

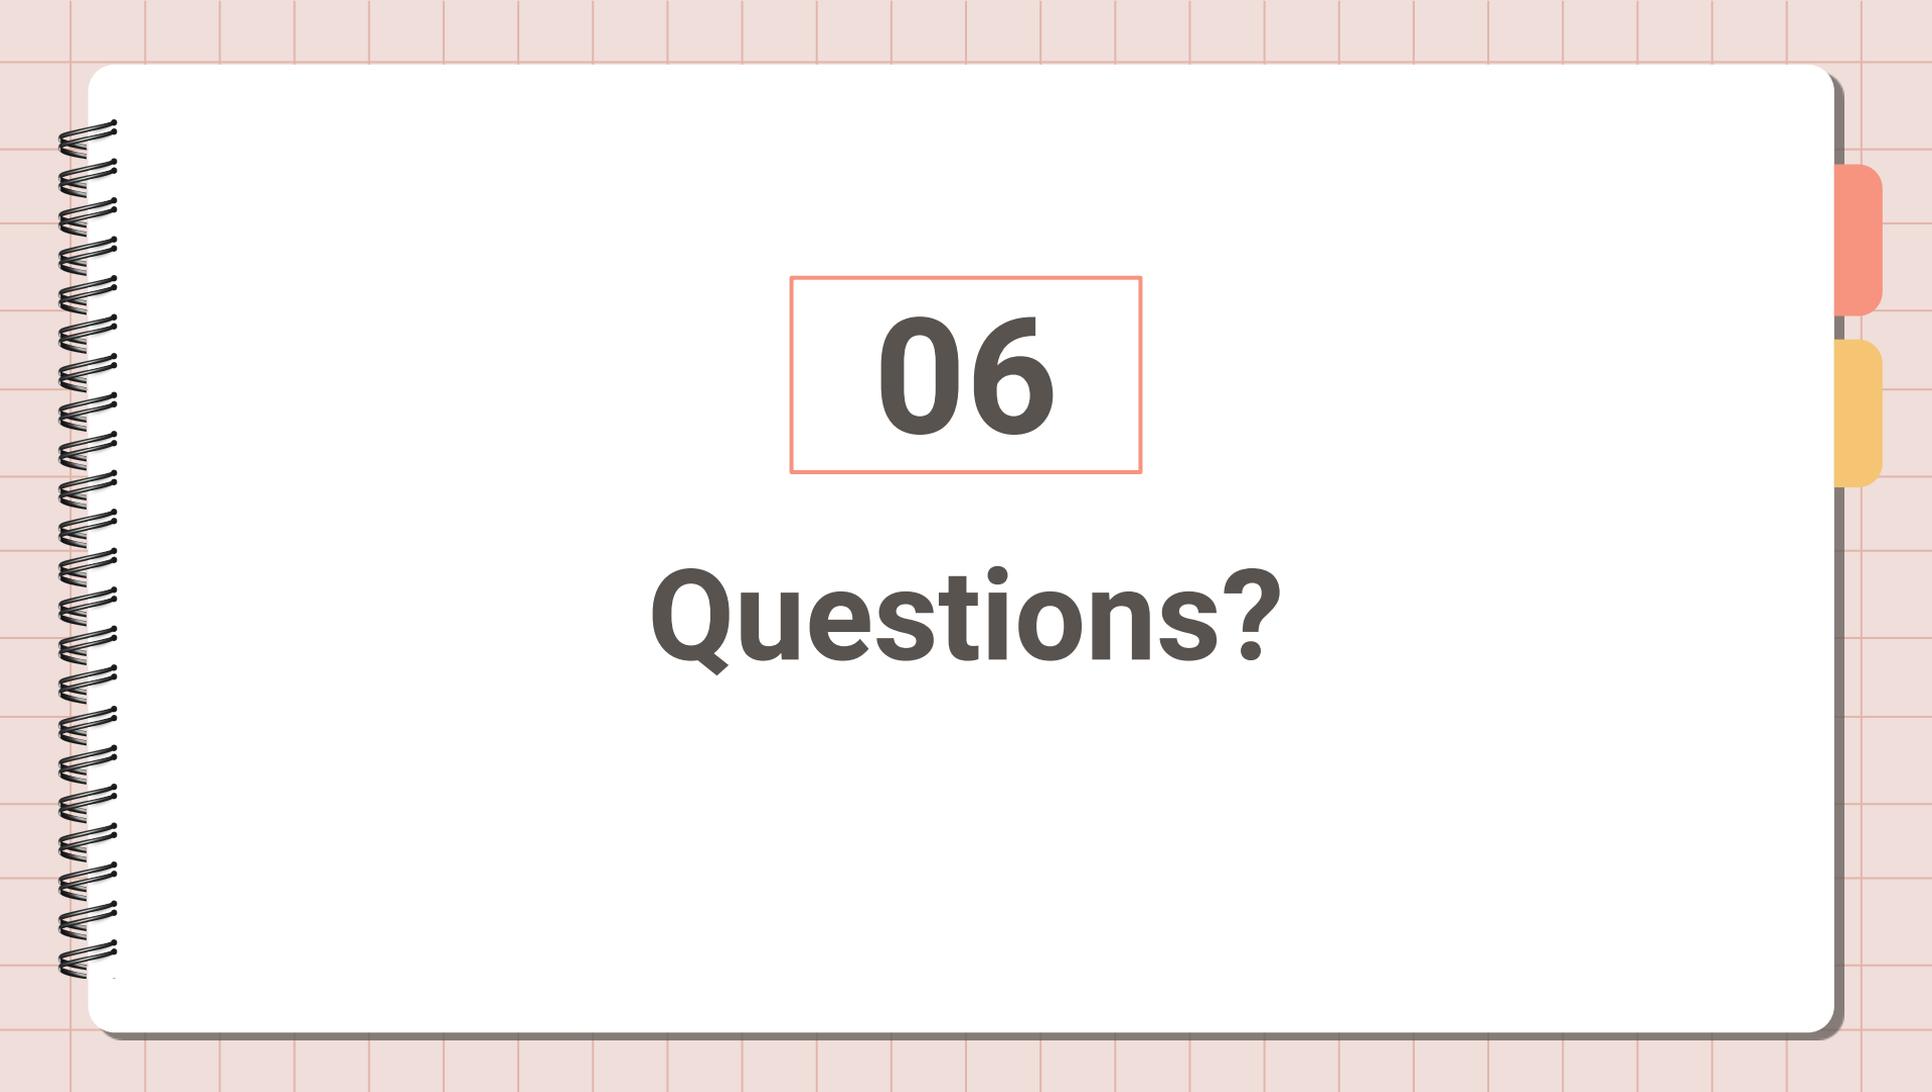

What do we do in the event of an emergency?

Parents are ALWAYS able to contact students at school. They can do so in one of three ways:

- Call the main office
- Call the students social worker
- Call the Supervisor's Cell Phone
